## Instructions to update Zoom

If you have the Zoom desktop application open, then do the following:

1. Click on the icon in the top right on the home screen

## 2. Select Check for Updates

3. Zoom will then automatically check for available updates and download the latest version, if one is available. Once the download is complete, click Update Now. Upon completion of that process, which should only take a 30 seconds to 1 minute typically, you will now be up to date.

Right click on the small zoom icon down by the time and date in the bottom right of your desktop (it may also be in the hidden icons area, check this by click the up arrow to the left of the time/date)

Choose "Check for Updates"

On Mac, go to the zoom.us dropdown menu, far left in the banner across the top of the desktop.

On Mobiles updates are via Google Play (Android) or App Store (iOS)
